HEALTH COMMITTEE

Chairman	-	Alderman H.N. Meredith	died 9.8.66
		Councillor W. Taylor	from September, 1966
Members	-	Councillor E.S. Jenkins	
		" D.R. Lewis	
		" W.H.G. Evans	
		" T.K. Evans	
		" W.G. Harries	
		" W.M. Mills (Mayor).	

To the Mayor, Aldermen and Councillors
of the Borough of Llanidloes.

Gentlemen,

It is my duty to present to you the Annual Report for 1966 on the health and sanitary conditions in your Borough.

In August 1966, the Chairman of the Public Health Committee Alderman H.M. Meredith died. He had been Chairman of this Committee for very many years and devoted a great deal of his time to the service of the people of Llanidloes.

For the last few months of the year Alderman V. Taylor was the Chairman of this Committee.

NATIONAL ASSISTANCE ACT, 1947 Section 47

No action was taken under this Section, which deals with the removal from their homes of people, generally elderly, who are living in insanitary conditions and who are unable to look after themselves and who receive no help from others and are in such a state that their conditions are prejudicial to their health.

The Home Help Service goes a long way in helping such people and it is because of this excellent service and the co-operation of the elderly that statutory action is seldom necessary.

VITAL STATISTICS.

There were 31 live births giving a rate of 13.14 per 1,000 population compared with 13.08 in 1965.

There were three illegitimate births, one still birth, five premature births and two home confinements.

There was one infant death giving an infant mortality rate of 32.3 per 1,000 live births, the same as in 1965.

There were 44 deaths giving a death rate of 18.64 per 1,000 population compared with 24.57 per 1,000 in 1965.

Some of these deaths occurred in the Chronic Sick Ward which is within the Borough. Perhaps I should point out that if a person has been in this Ward for longer than six months, then his death is ascribed to the Borough and if under six months the death is transferred to the normal place of residence.

Of these 44 deaths, 26 occurred in people of 75 years and over.

WATER SUPPLIES.

The Montgomeryshire Water Board is responsible for the water supply and a detailed report from the Manager of the Board will be found later in this report. Water samples are taken regularly by the Public Health Inspector.

SEWERAGE.

There was an enquiry held by an Inspector from the Welsh Office in November into the proposed new sewerage scheme. It is to be hoped that work will start on this scheme before long and that the town can go ahead with its development plans. Housing has been restricted on account of inadequate sewerage facilities.

Routine maintenance work was carried out on the sewers and more areas of land at the Sewerage Farm were brought into use for irrigation.

On the 330 yards of sewer in the Newtown Road are two manholes shown on the map, but the road over the years has been built up and these manholes have been covered. Apparently some time has been spent trying to find these manholes but without success.

Gentlemen,

It is my duty to present to you the Annual Report for 1956 on the health and sanitary conditions in your Borough. In August 1956, the Chairman of the Public Health Committee, Alderman R.H. Williams died. He had been Chairman of this Committee for many years and showed a great deal of his time to the service of the people of Llanidloes. For the last few months of the year Alderman V. Wynne was the Chairman of this Committee.

NATIONAL ASSISTANCE ACT, 1947 Section 47

No action was taken under this Section, which deals with the removal from their homes of people, especially elderly, who are living in insanitary conditions and who are unable to look after themselves and who receive no help from others and are in such a state that their conditions are prejudicial to their health.

The Home Help Service goes a long way in helping such people and it is because of this excellent service and the co-operation of the elderly that satisfactory action is taken.

VITAL STATISTICS.

There were 21 live births giving a rate of 23.14 per

1,000 population compared with 24.75 per 1,000 in 1955.

Five abortions were recorded in the year ending 1956.

Rate of 35.5 per 1,000 live births, the rate in 1955.

There were 15 deaths giving a rate of 15.64 per 1,000 population compared with 14.75 per 1,000 in 1955.

None of these deaths occurred in the Domestic class and which is within the Borough. I should state that 1956 is a year in which this town has longer than any other town in Wales its death is recorded in the Borough and it under the death is transferred to the normal place of residence.

Of these 15 deaths, 10 occurred in people of 45 years

and over.

WATER SUPPLY.

The Llanidloes Water Board is responsible for the water supply and a detailed report from the Manager of the Board will be found later in this report.

Water samples are taken regularly by the Public Health Inspector.

SITING.

There was an enquiry held by an Inspector from the Welsh Office in November into the proposed new sewage works. It is to be hoped that work will start on this scheme before long and that the town can go ahead with its development plans. However has been restricted on account of inadequate sewage facilities.

Public assistance work was carried out on the roads and more work of kind at the Bannock Burn was brought into use for irrigation.

On the 550 yards of sewer in the Newland Road are two

some time has been spent trying to find these manholes but without success.

REFUSE COLLECTION

The amount of refuse collected has increased due to the increased number of houses and the more bulky nature of domestic refuse. The tip at Pempompren has been satisfactorily maintained.

PUBLIC CONVENIENCES.

These suffered from vandalism as is so common in so many towns and is so deplorable.

HOUSING.

Ten detached bungalows with gas fired hot air central heating were completed and the twelve flats also heated in the same way were commenced at Pengenlan.

It was decided to proceed by compulsory purchase order to obtain the land at Church Place where five houses and the old vicarage are to be demolished, in order to proceed with redevelopment.

There was no progress in obtaining the site in Brook Street for development.

Four houses were built privately.

Seven houses were demolished, twelve houses were made fit and of these twelve, five received improvement grants.

It gives me much pleasure to express my appreciation of the co-operation I have always received from the Council's staff and to thank the Council for its continued efforts on behalf of the inhabitants of Llanidloes to make it a healthy town in which to live.

I am,

Your obedient servant,

AMELIA EVANS.

April, 1967

Four names were removed from the Register :-

(1) Due to recovery - a female age 47 in 1961 when notified with
abdominal tuberculosis.

(2) Due to recovery - a female age 28 in 1961 when notified with
pulmonary tuberculosis.

(3) Due to recovery - A boy age 12 in 1962 when notified with pulmonary
tuberculosis.

(4) Due to death - A male age 61 who moved here in 1965 with pulmonary
tuberculosis.

There were fourteen names on the Register at the end of the year.

[The following text is extremely faint and illegible due to the quality of the scan. It appears to be a multi-paragraph document, possibly a letter or a report, with several lines of text visible across the page.]

NEWTOWN URBAN DISTRICT.

Three names were put on the Register.

- (1) A man age 40 notified with pulmonary tuberculosis.
- (2) A man age 32 with pulmonary tuberculosis who has come to live in the district.
- (3) A boy age 9 with cervical gland involvement who has come to live in the district.

Three names were removed from the Register:

- (1) Due to recovery - a man age 39 in 1959 when notified with pulmonary tuberculosis.
- (2) Due to recovery - a man age 45 who moved into this area in 1964 and who had suffered from pulmonary tuberculosis.

There were sixteen names on the Register at the end of the year.

MACHYNLLETH RURAL DISTRICT.

One name was put on the Register - a woman age 73 who was suffering from pulmonary tuberculosis.

Three names were removed from the register.

- (1) Due to recovery - a woman who was 33 in 1953 when notified with pulmonary tuberculosis.
- (2) Due to recovery - a woman who was 64 in 1960 when notified with pulmonary tuberculosis.
- (3) Due to death, the woman of 73 who was notified earlier in the year.

There were seventeen names on the Register at the end of the year.

NEWTOWN & LLANIDLOES RURAL DISTRICT

It was rather disturbing to have six new cases of tuberculosis notified during the year.

A woman of 36 and five men, ages 39, 44, 47, 65 and 71 year all with pulmonary tuberculosis.

Six names were removed from the Register.

- (1) Due to recovery - a woman aged 34 in 1948 when notified with pulmonary tuberculosis.
- (2) Due to recovery - a woman age 23 in 1958 when notified with pulmonary tuberculosis.
- (3) Left the district, a man of 76 in 1963 when notified with genito-urinary involvement.
- (4) Changed diagnosis and subsequent death a woman of 57 who moved into this area in 1965.
- (5) Left the district a man of 77 notified in 1963 with pulmonary tuberculosis.
- (6) Due to death the man of 71 notified earlier in 1966.

There were twentynine names on the Register at the end of the year.

VACCINATION AGAINST TUBERCULOSIS.

This procedure is offered to children of thirteen years and over during the year I vaccinated children who gave a negative Mantoux reaction at the appropriate schools in the area.

Children who are Mantoux positive are referred to the Chest Physician for further investigation.

Babies are vaccinated by the Chest Physician where there is a family history of tuberculosis.

**

- (3) Diagnosis was changed in a man of 40 who was notified in mid 1966 as suffering from pulmonary tuberculosis.

The first part of the paper discusses the importance of maintaining accurate records of all transactions. It is essential for the business to have a clear and concise record of all income and expenses. This will allow the business to track its financial performance over time and identify areas for improvement. The second part of the paper discusses the importance of maintaining accurate records of all assets and liabilities. This will allow the business to track its net worth over time and identify areas for improvement. The third part of the paper discusses the importance of maintaining accurate records of all debts and obligations. This will allow the business to track its financial obligations over time and identify areas for improvement. The fourth part of the paper discusses the importance of maintaining accurate records of all taxes and other legal obligations. This will allow the business to track its financial obligations over time and identify areas for improvement. The fifth part of the paper discusses the importance of maintaining accurate records of all other financial information. This will allow the business to track its financial performance over time and identify areas for improvement.

The following schedule is the one most commonly adopted :-

3 months - Diphtheria, Whooping Cough and Tetanus.

4 " " " "

5 " " " "

6 " - 1st oral polio.

7 " - 2nd oral polio.

8 " - 3rd oral polio.

Small pox after 1st birthday.

School entry Booster diphtheria and tetanus
 4th polio.

8 - 12 years Booster diphtheria and tetanus
 Small pox re-vaccination.

13 years B.C.G. Baccination.

MONTGOMERYSHIRE WATER BOARD

Water Supplies.

- a. The water supply of the area has been in general satisfactory both in quality and in quantity.

- b. i. Bacteriological examination of all the sources in the area is carried out regularly, examination being made primarily of treated water but with occasional raw water samples being taken.

The results of bacteriological examinations of supplies in the area are given in Appendix 'A'.

- ii. One sample for chemical analysis is normally taken from each source annually. During 1966, 17 No. analyses were carried out and the results indicate that all sources are satisfactory for public water supply.

These results are attached.

- iii. Fluoride content of the various supplies is less than 0.001 p.p.m.

- c. The only water having certain plumbo-solvent action is from the borehole source at Llangurig. Precautionary measures are under investigation at present.

- d. The normal measures taken following the report of unsatisfactory samples are to increase the dosage of sodium hypochlorite and to carry out a systematic flushing of mains, with a further sample being taken.

The mains from the source at Llanbrynmair, where the bulk of unsatisfactory samples have been obtained, have been flushed over their whole length and at present samples from this source and all the Board's sources in the area are highly satisfactory.

4. The number of dwelling houses supplied direct from the mains and by stand-pipe are given in the attached Appendix 'B'. It is unfortunately not possible to give an accurate figure for the population supplied.

The first part of the paper discusses the importance of the study of the history of the United States. It is argued that a knowledge of the past is essential for a full understanding of the present. The author then goes on to discuss the various factors which have shaped the development of the United States, including the influence of the British, the Spanish, and the French. He also discusses the role of the American people in the creation of the nation. The second part of the paper is a detailed account of the life of George Washington, from his early years to his death. The author describes Washington's military and political career, and his role in the founding of the United States. The third part of the paper is a discussion of the American Revolution, and the role of the Continental Congress. The author discusses the various events which led to the outbreak of the war, and the role of the Continental Congress in the struggle for independence. The fourth part of the paper is a discussion of the American Constitution, and the role of the Supreme Court. The author discusses the various events which led to the adoption of the Constitution, and the role of the Supreme Court in the interpretation of the Constitution. The fifth part of the paper is a discussion of the American Civil War, and the role of the Union and the Confederacy. The author discusses the various events which led to the outbreak of the war, and the role of the Union and the Confederacy in the struggle for freedom. The sixth part of the paper is a discussion of the American Reconstruction, and the role of the Union and the Confederacy. The author discusses the various events which led to the end of the war, and the role of the Union and the Confederacy in the struggle for freedom. The seventh part of the paper is a discussion of the American West, and the role of the Union and the Confederacy. The author discusses the various events which led to the settlement of the West, and the role of the Union and the Confederacy in the struggle for freedom. The eighth part of the paper is a discussion of the American South, and the role of the Union and the Confederacy. The author discusses the various events which led to the end of slavery, and the role of the Union and the Confederacy in the struggle for freedom. The ninth part of the paper is a discussion of the American North, and the role of the Union and the Confederacy. The author discusses the various events which led to the end of slavery, and the role of the Union and the Confederacy in the struggle for freedom. The tenth part of the paper is a discussion of the American future, and the role of the Union and the Confederacy. The author discusses the various events which led to the end of slavery, and the role of the Union and the Confederacy in the struggle for freedom.
